

AÇAÍ

Açaí juice concentrate is one of the many products supplied by iTi Tropicals.

Fruit Overview:

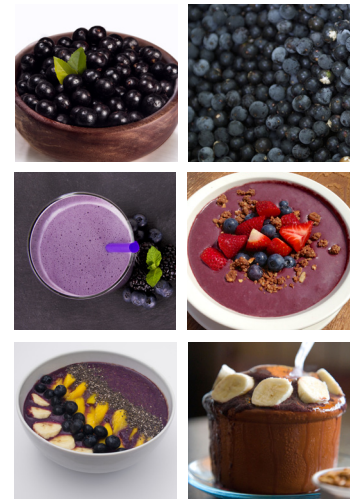

Açaí is a small, round, blackish-purple palm fruit native to the Amazon. It is famous around the world for being rich in antioxidants, healthy Omega fats, protein, and dietary fiber. The berry is round, 1-2 centimeters in diameter, with a single large seed which makes up 90% of the fruit. It has a rich, berry-cocoa flavor that is not only unique, but tastes amazing. Moreover, it has 30 times the antioxidants of red wine. Açaí is considered to be one of the top superfoods in the world.

Food Application:

Açaí juices and purees are very appealing to consumers due to the exotic nature and “superfruit” status. It can be used in tropical drinks, smoothies, yogurts, ice creams, sherbet, tarts, jellies, syrups, sauces, and cocktails. It blends well with most fruits including banana, pineapple, papaya, and mango.

Available Product:

iTi supplies organic açai products including frozen açai puree, frozen clarified açai juice, clarified açai juice concentrate, and organic açai with lime. These products are 100% natural, GMO free, Kosher-certified, organic certified by ECOCERT and manufactured under a certified quality system. They do not contain any artificial color, flavors, or preservatives.
